MONDAY MORNING, OCT. 5, 1863.

The Ballot, the Nation's Defense.

It is reported that Vallandigham, in a recent speech to some of his treasonable admirers in Canada, said that "the ballot was the true and proper remedy in the United States for all political wrongs." The truth of the remark, of course nobody doubts. Beyond a question in a Republic like ours, the ballot is the only remedy for all political grievances, but it is just the remedy to which the Ohio demagogue and his party friends are unwilling to submit. He and they are insincere in their professions that it the "true and proper" one, for this rebellion which they approve, and with which they sympathise is a war against the ballot. The South is fighting simply because it could not control the votes of the Nation. Its friends are making mobs riots and disorder—and resisting laws by violence, only because they cannot at the polls overcome the patriotic voice of the country. If sincere in their avowals, why do they not support the Government in its efforts to sustain the ballot and such an administration of the laws, as the people by their sovereign voice have demanded? Why is there an organized and malignant and persistent opposition to every measure which looks to the effective suppression of the rebellion? Surely, the popular wish—the ballot—is most clearly in favor of sustaining the Government and this cannot but be known to the arch-demagogue who is adroitly endeavoring to sap the foundations of our National prosperity, and sacrifice our institutions to the infernal demands of the Southern taskmasters who have so long ruled the land, but whose power is now by virtue of the ballot broken and cast away forever. His pretended admiration of the mainspring of our freedom is hollow and vain, for he is striving to destroy its influence; he is seeking by every means in his power to weaken the force of what gives energy and strength to the American Nation—he is cutting up by the roots the very source of popular intelligence, and power and freedom, and endeavoring to cast the Republic back among the despotisms which disgrace and degrade humanity.

A New Element for West Point.—It seems that the President has determined to fill the cadetships at West Point that are left vacant by the operation of the rebellion, by the appointment of deserving young men from the army. Gen. Grant has received orders from Washington to send in the names of soldiers who are of the proper age and qualified for the position, and examination of candidates has been made by Gen. Sherman. This is an excellent idea.

General Gilmore's father is still living in Lorraine county, Ohio, where the General was born. The old gentleman was recently present and made a speech at a Sunday School picnic. Among other things he said:

> I can say of my son Quartus that he never disobeyed me; he was very studious, and when he wanted to go to West Point, as he had no money, I told him if he would go and try to come out at the head of the class, that I would furnish him money. He went, and came out at the head of his class, and is now before Charleston, where I hope he will come out *at the head* of his class again.

They Never Complain.—No one has ever heard a Copperhead denounce the butchery of men, women and children perpetrated by the scoundrel Quantrell at Lawrence, Kansas. Have you?—*S. F. Republic.*

No, but we find in every Copperhead journal an account of a "horrible outrage by a negro," which is paraded as one of the results of the wicked policy of trying to quell a rebellion against the Government.

The late Mass Convention of Union men in Missouri declared, as with one voice and with one heart, that slavery, which has been the cause of all this war and ruin in the land shall never—never—never more be tolerated as an institution in a re-established Union, and that as for Missouri, the only remedy which will answer for present evils is *immediate emancipation.*

Treason in Iowa.—The West Union *Pioneer*, the organ of the Democratic party in Fayette county, Iowa, publishes an article on the Conscription law, in which it addresses the following counsel to its partisans:

> You should resist the Conscription with your rifles, your shot guns, or whatever weapons you can get hold of. If you, young men, do not resist the Conscription, you are unworthy to be called American citizens. Will you permit Lincoln and his shoulder-strapped Phillipses any longer to make laws and put them in force at the point of the bayonet? * * * The Conscription is unconstitutional, and it is no use to leave it to Lincoln's Court to decide such questions.

Singular Facts.—The San Francisco *Herald* remarks as follows on the late State election:

> It is noticed that wherever the papers circulate freely that the Copperheads are defeated. Also, that wherever Weller & Co. put in their "best licks" the same result is manifested. Also, that they elected no local candidate scarcely who stumped the county in which he was running. Also, that every man on the Union ticket who was specially denounced as an "Abolitionist" run ahead of his ticket.

From a Temporary Sojourner in Victoria, V. I.

Victoria, V. I., Sept. 24, 1863.

Editor Oregonian:

I was at Seattle, W. T., on the 4th of July, and was favorably impressed with the prospects of the place. I think it is destined to be the largest and best business place on the Sound.

A few days since I paid a visit to San Juan Island. I traveled from the American barracks to the English post by land, which is a distance of some 14 miles. I saw only a few tracts of land at all desirable for farming purposes. The grazing is very good. The island, like Vancouver Island, is a mass of rocks, with occasionally a contracted valley, with a little tillable soil. I ascended Mount Dolores, from which I had a fine view of the island, the surrounding islands and the Gulf of Georgia. The sight was altogether grand and fully repaid me for the labor of climbing the mountain.

Except for its military position, San Juan Island is not worth quarreling about. It can only be used by farmers for grazing. Vancouver Island is little better; though I may properly say that I have only seen that part of it which skirts the water between Victoria and Nanaimo—at which last place are situated the great coal fields of the islands.

The land on the shores of Vancouver Island is broken and rocky, with little valleys, which are filled with tall pine trees. The soil, where any is found, is only two or three inches deep, under which, first, is gravel, then sand, then a blue clay. I have but a poor opinion of this land for agricultural purposes; still there are isolated spots that produce wonderfully.

Of the interior of the island, not much is known. Ten or twelve miles inland from this city is said to be the farthest that has been explored. This fact is not very flattering to English enterprise. The truth may be that they are not the people to develop the resources of a new country. Had it not been for the Americans the gold fields of British Columbia would have remained unknown, and it may be left for them to develop the hidden mineral wealth of this island.

There is excellent timber upon many points of Vancouver Island. At Barclay Sound there is an extensive saw mill, and English and American ships have been loaded there with lumber and spars, the present season, for England, France, Spain and China.

Discoveries of copper ore have been made on the shores of the island. Assays of this ore have been made, and it has been found to contain from 19 to 35 per cent. of pure metal. Several companies have been organized for working these copper mines. Silver ore also has been found, which is said to be as rich as the Washoe ore. Hitherto Cariboo has attracted the attention of adventurers, but as that region, except for rich companies, is said to be "played out," the mineral wealth of this island may stand a chance of being developed.

The news from Cariboo, this season, seems to be not at all satisfactory. No new discoveries of importance have been reported. The old claims are all that are paying, and there is only ten or twelve of these. Last year there was a rush of miners to Cariboo—said to number ten or fifteen thousand. The result was, Cariboo, on account of the scarcity and high prices of provisions, the rigidness of the climate and the poor success of the miners, received a hard name—and this season only twelve or fifteen hundred adventurers went to Cariboo. Provisions, however, were cheaper the present season, and the country has been thoroughly prospected. The people here having relied upon the mines of Cariboo for the success of their business, are loth that the failure of the mines should be known. The newspapers, too, do not represent the facts in regard to the Cariboo mines, as they are.

It is believed, however, in regard to Cariboo, that the gold is there—that it is at a great depth—and that capital only can be successful in finding it. The present diggings, few in number, yield well.

There has been a great falling off in the business of Victoria the present season, compared with the last. The imports from Oregon, California and Washington Territory are said to have decreased one-third. From England, however, they have nearly doubled. The market at this time is overstocked with dry goods and liquors, which are beginning to find sale in San Francisco.

But few emigrants are now coming here, whilst last season, I am told, they were teeming from England, Ireland and Scotland. Nevertheless, Victoria is going ahead in buildings and public improvements. What there is to demand or warrant these, is a mystery, and can only be explained by the capital employed in these improvements having been sent here from England for investment. Victoria has one great advantage over other towns on this coast: *it is a free port*—that is, no duties are collected on goods landed here from any part of the world—thus making this place a sort of bonded warehouse for the Pacific coast.

At this time, Victoria has a population of about seven thousand souls, seven churches, no public schools, a theater and 190 drinking saloons. The people are a mixture from all creation.

One of the great drawbacks of this place is a want of pure water—it has an abundance of liquor. Nearly every family is supplied with water hauled from springs. An effort is now being made to bring water into the city by wooden pipes, which can very easily be done.

The "beef embargo" caused much complaint here and in Washington Territory. It had the effect of materially advancing the price of beef, mutton and pork. The butchers were about raising the price of beef to 40 cents per pound, when happily the news arrived that the "embargo" was dispensed with by Government so far as this coast was concerned. This news caused great rejoicing.

On the whole I am pleased with Victoria. It is a healthy, pleasant, growing and bustling city. This whole region of country must rely upon Oregon and Washington Territory for its main supplies of provisions—and hence it is that the building up of this country by John Bull will enure to your benefit.

Health of Jeff. Davis.—A late prisoner in Richmond gives the New York *World* the following intelligence:

> The miserable story that a guard has been placed around Jeff. Davis' house to keep him from running away is, of course, untrue. It was probably intended as a joke. He bears continued news of defeat and disaster as bravely as he may. His health, however, is completely broken down. Our informant does not believe that he can hold out many years longer. He looks very worn and sick, and he has been suffering a great deal. He still rides out whenever he is well enough, at about five or six o'clock in the afternoon, either in a carriage with his wife, or on horseback with his nephew. During the first disasters the people were bitter against the Government and the President, and partisanship is, of course, still rife; but much of this feeling is changed very lately into total hopelessness of the cause of the South under any leadership.

SPECIAL DISPATCHES TO THE DAILY OREGONIAN

LATER FROM THE EAST.

Dates to September 28.

Washington, Sept. 28.—Gen. Hooker left Washington this morning for active service.

Fortress Monroe, Sept. 26th.—Deserters again say that Richmond is being evacuated, and that the rebel army is deserting Virginia. Some of our men who have arrived at Williamsburg, having escaped from Belle Isle, report the same thing.

Washington, Sept. 28.—Up to 2 o'clock today nothing was received from Chattanooga. The enemy had made no attack since the 21st. Gen Meigs, who arrived at Chattanooga on Saturday, the 20th, upon invitation examined Rosecrans's defenses, and says nothing but a siege can dislodge him, and the enemy are making no more in that direction.

New York, Sept. 28.—Gold firmer at 40@40½.

Memphis, Sept 26.—The Mobile *News*, of the 18th September, contains an editorial from the Atlanta, Ga., *Appeal*, of the 16th, upon military matters, saying that the seat of war would be removed from Virginia to Tennessee and Georgia, and intimates that a great portion of Meade's and Grant's armies had been sent to the assistance of Rosecrans.

Chicago, Sept. 28.—The telegram, dated last night, saying Burnside was at Knoxville Sept. 25th, is probably true. A Knoxville letter of the 24th makes no mention of any movement thence. Only vague rumors, thro' rebel sources, had been received at that place of the disasters to Rosecrans. Recruiting was going on rapidly; seven new regiments being nearly full, and a regiment of artillery had 600 men. The troops are being armed as rapidly as raised. Notwithstanding General Burnsides' stringent orders outrages were occasionally being committed by the Tennessee Unionists, who regard the present operations in Tennessee as an opportunity to retaliate for their own grievances.

Overland wire down yesterday.—Operator.

The Reserve Strength of the Free States.—In an oration delivered last 4th of July at Jamaica, (L. I.,) Mr. McCormick said:

> A few figures lately obtained from the Department of Agriculture, tell a story which the world would do well to consider. Our total agricultural exports (exclusive of cotton) in 1860, when we were yet at peace, were $90,849,556, of which Southern ports exported $19,738,365. In 1861, with half a million of men in arms, and no Southern exports, they amounted to $137,025,505, and in 1862, with a million of men in the field (one half of them from the rural districts), and no Southern exports, they reached the sum of $155,142,075. The amount of wheat and flour alone exported in the year ending September 1, 1862, exceeded that of the previous year by over seven millions of bushels. Estimating the force of our army (and its employes) in the field at one million of men, as I have done, and I deem it a reasonable estimate, and the rations per diem to each man at twenty-two ounces of flour, it requires for its supply for a year 12,800,000 bushels of wheat. Was there ever a country in the world, one half of which could feed such an army, largely made up from its agricultural population, and yet so wonderfully increase its exports of breadstuffs?

How the War Affects Poland.—A letter from Poland in an English paper says:

> A long stay in Poland has a most depressing effect on the spirits. The universal mourning worn by the women haunts you even in your sleep, and you feel that "black," after all, is the true ghost color. Wherever you go you find the same poor helpless creatures herding together in the churches; and even there not always free from the brutality of the Russian soldiery. Under the pretense of searching for arms, the sanctity of the house of God has repeatedly been violated, and sentries stationed at the door not unfrequently subject ladies to annoyance, if not insult, in going in and out. It is the attitude of the women which annoys the Russians still more than that of the mob. There is no sacrifice to which they will not readily submit, and their spirit is indomitable. From the princess Sapicha to the petty tradesman's wife, they devote themselves heart and soul to the cause, slaving night and day at making clothes, conveying arms and ammunition to the insurgent camp, remaining all night under prison walls, for the chance of rescuing captives, and performing other heroic acts. Combined with this power of self sacrifice, Polish ladies possess a most lively wit, which is often more than a match for their enemies."

A Rebel General Dead of Grief.—A Vicksburg correspondent furnishes the following item:

> Maj.-Gen. Bowen, of Missouri, the bearer of the flag of truce with Pemberton's proposal to surrender Vicksburg, died of pure grief and disappointment, about eight miles this side of Jackson, on the 22d. He was one of the first of the paroled officers to leave Vicksburg, and had passed out of our lines, and was proceeding toward Jackson, when he was taken sick and lodged in a farm-house. He was a proud, sensitive man, much esteemed personally among his acquaintances, and linked his destinies with those of the South from the first. The conviction that the Confederacy was already overpowered and lost, and that poverty and disgrace for the part he had taken in the rebellion, were his doom, proved too much for him. He was buried in the door-yard but a few paces from where he died. His wife was with him at the time of his death, and is said to have lost her reason from the many griefs and misfortunes crowding upon her.

A Stump Speech.—At a recent Union meeting at Troy, Miami county, Ohio, was a returned Union soldier, who had lost one leg at Vicksburg. He was welcomed by his friends, and one of them—a Vallandigham Democrat—entering into conversation with the soldier, remarked: "You were a Democrat when you enlisted, and I suppose you have come back a Democrat." The soldier replied, "Yes, I was a Democrat when I left and am a Democrat still." "That's right," replied his friend triumphantly, "and of course you will vote for Vallandigham," looking around to gain the attention of the crowd to the answer. "My God, how can I?" said the soldier as he raised his eyes to the crowd and put his hand on the unhealed stump of his leg.

Butler's Idea.—General Butler wrote to the Springfield (Ill.) Union Mass Convention:

> Compromises are impossible, save between equals in right. Reorganization or reconstruction is alone useful when vicious parts are to be left out. Amnesties are for individuals, not for organized communities; therefore, prosecute the war, bring every part of the country into submission to the laws of the United States, then there will be no place for rebellion, no parties for compromise, no occasion for reconstruction, and clemency may be shown and amnesties offered to individual citizens who desire them. Is there any other way to restore the Union?

Artist and Author.—Messrs. Bierstadt and Fitz Hugh Ludlow started yesterday for Oregon in the Sacramento boat. They take their horses by steam to Red Bluff, and thence they will ride by Shasta, through the Klamath, Rogue, Umpqua and Willamette valleys. They will ascend the Columbia to the mouth of Snake river, then go down to the Cowlitz, there take to their saddles again, ride across to Puget Sound, and thence come to San Francisco by sea, touching at British Columbia if they have time. They arrived in the State about ten weeks ago, have spent a couple of weeks in San Francisco, and were two months in Yosemite valley. Mr. Bierstadt has been very industrious, and has taken a multitude of sketches, which, though made in six or eight hours each, have an excellence that would entitle them to take rank with finished pictures. Indeed, several of them are great works of art. In sketching, it is admitted that Bierstadt has no equal in America. His sketches, however, are merely made as guides for pictures, which will require months, perhaps years, to complete.—*Alta.*

Scrofula Cured.

NEW ALBANY, INDIANA, Sept. 25, 1853.

MESSRS. A. L. SCOVILL & CO.—Gents: In answer to your inquiries about the cure of my son, I will say, that he is now ten years old, and has been SCROFULOUS FROM INFANCY, although under the care of one of the best physicians, who said that he could not cure him. In the first place, the disease made its appearance in small knots upon the glands of his neck, and, finally, they ulcerated and formed running sores, which reduced him almost to a skeleton. He lost his appetite, and we gave him up, and thought that he could not be cured. I got DR. MOTT'S LIVER PILLS following the directions. He had used them but a short time before he was greatly relieved, and now is entirely well. Yours truly, ROBERT STILE.

BRISTY, MONROE CO. (MICH.) Oct. 9, 1853.

MESSRS. A. L. SCOVILL & CO.—In reply to inquiries as to the efficacy of your DR. BAKER'S PAIN PANACEA, justice requires of me to state that, having at times been attacked by a violent contraction of the muscles of the legs, I experienced immediate relief by taking at each time a swallow of the Pain Panacea direct from the bottle. It is rather a tough remedy, but I have always found the smarting of the Panacea a very happy exchange for the excruciating pains attending cramps in the limbs.

Your obedient servant,

All other houses that take goods on storage are wooden buildings and in exposed parts of the town, liable to the risk of fire. The subscriber assures his patrons that his charges are but $1 50 per ton per month storage and although storage in wooden buildings is $1 00 per ton, yet the public cannot fail to perceive the advantages the subscriber possesses over other warehouses of this place.

☞ **In Every Age of the World,** the professions have been slow to admit the value of new discoveries, or the expediency of adopting them in practice. It is not to the legal profession that we look for reforms in jurisprudence, neither do we find the advocates of medical reform among physicians. Each deprecates whatever is found to innovate upon received opinions and established usage. Hence the opposition which medical men too often exhibit to the use of private remedies, whatever their acknowledged value, or great efficiency in the cure of disease. No medicine has ever done more for the relief of human suffering than DR. OSGOOD'S INDIA CHOLAGOGUE. The certainty with which it cures Fever and Ague, and eradicates bile from the system is acknowledged by all. Do you prefer a speedy and effectual cure to a regular and scientific run of disease? Try the Cholagogue, and the object is accomplished. Then tell your suffering neighbor what it has done for you, that it may do the same for him.

PARSON BROWNLOW AGAIN.—This fierce old patriot made a speech at Franklin, Tennessee, August 22d, in which he said:

"I never voted for Jackson, or any of his party friends, but if my earnest prayers and bitter tears could have recalled Old Hickory to life I would have poured them forth that he might have sat in the 'Old Hell of Functionary's' chair, and collared that unmitigated scamp Floyd, Jake Thompson and that anointed thief Judah Benjamin, and to hold them, 'By the eternal, this damnable plot has got to stop!' And it would have stopped, and the people would have shouted Amen!

In 1860 I visited Montgomery, Alabama, and was invited by the Legislature to deliver an address in their hall on public affairs. I did so. I declared myself a Southern pro-slavery man, and that I desired the prosperity of the South. They applauded these sentiments. But I added that I had seen with pain their act to arm the State in case a Republican President should be elected. I said I meant treason, and that I was an unconditional Union man, and would stand by the Union, although slavery should perish. Some of the men hissed, and some elegantly dressed ladies bounced up and left the hall; the devil was in them, then, before it got into the men. My ticket in 1860 was the Bell Everett ticket, a sort of Kangaroo affair, with all its vim in its hind legs. John Bell is now poking around Rome and Atlanta, with an old cotton umbrella under his arms, hunting for his rights. He'll get them, his iron works have got them already. Douglas headed the next ticket—a gallant patriot, who, if alive to-day, would be in the field with a star or two on his shoulders. Breckinridge headed the third ticket. The fourth and last ticket was headed by Mr Lincoln, and if none of you have heard the result before, I have the pleasure to inform you, that ticket was elected! There would have been no war if Breckinridge had been elected. He would have gone into office, sworn before God and kissed the Bible on it, to defend the Constitution and the Union, spent four years in filling every Southern fort and city with arms, removed all the public money South, manned the whole navy with traitors, and at the end of his term walked out of the Union, leaving the North without a gun, a ship, a pistol, or a saber. I thank my God to-day, that neither Bell, Douglas nor Breckinridge was elected, and that a more honest, brave, wise, and patriotic man was elected than Breckinridge could be, unless he was made over again, and I think I know enough of divine character to say that the Almighty never would undertake that job. These Southern leaders are the worst men who ever lived. There are better men in the Penitentiary, and if I were not afraid of getting up a theological discussion, I would say there are better men in hell! They took a solemn oath of office, they devoutly kissed the Bible upon it, and then after legislating in Congress all day, and drawing their salaries, met in a secret room, by night, to plot the overthrow of the Government. Honorable Toombs! Honorable A. O. P. N[illegible] Nicholson! I will not insult Judas Iscariot by comparing him with these wretches. Why, after all their cry about abolitionists, these rebels are a gang of negro thieves. Scott's Alabama cavalry, composed of Southern chivalry, kidnapped my negro boy Charles, one Sunday, and run him South. He came back to me the other day, having given them the slip, after getting his "rights" abundantly. Now, I had expected that these "blue coats" might take a negro occasionally, but not the flower of secession aristocracy! These rebels have stolen more negroes since the rebellion began from Union men, and run them South, than the abolitionists ever did. Northern abolitionists are not fit to hold a candle to these Southern negro thieves. Your Captain Perkins, of the town of Franklin, is a specimen of these negro thieves. They are hypocrites and scoundrels, as well as traitors. I hope the devil may seize them and drown them in the sea, as he did the swine in the New Testament."

A PREACHER'S REPUTATION.—A preacher's reputation ought to be a sacred thing with his congregation, because he is their minister. Whatever damages his reputation, impairs his usefulness and injures their church. Moreover he is Christ's embassador, and whatever obstructs his mission is an impediment to the Savior's cause. Beware how you speak of men who are doing the work of God, lest, exciting prejudice against them, and preventing sinners from hearing the Word of Life and giving it due attention, the blood of souls be found upon your skirts. Let congregations take care of their minister's reputation, and let minister's take care of their own characters.

A physician took a young student to see a patient who was confined to his bed. "Sir," said the physician to the sick man, "you have been imprudent, you have eaten oysters."

The patient admitted that he had. Returning home the student asked the doctor how he discovered that the man had eaten oysters?

"Why," replied the doctor, "I saw the shells under the bed."

A few days after the student was sent to visit the same patient. He soon returned, however, saying that he had been kicked out of the house for telling the patient he had been imprudent—he had eaten horseflesh.

"*Horseflesh*, you young fool! what do you mean?" cried the doctor.

"Because, sir, I saw a saddle and a pair of stirrups under the bed."

WHERE IS THE MAN OF THE HOUSE?—The "physical appearance" of some men sometimes changes the current of events. A case occurred a few days ago. The children of two neighbors had their daily quarrels and fights, which resulted occasionally in bruised faces and torn garments. The father of one family believing his children to have been sadly maltreated, and being a passionate man, concluded that the surest way to settle the differences between their households permanently, would be to chastise the head of the other family, although as yet he had never seen him. He therefore procured a rawhide, and abruptly entering his neighbor's tenement, inquired in a threatening tone for the man of the house.

"I am here, sir," said a personage of upwards of six feet and weighing some 250 pounds, as he approached to learn the business of his neighbor.

"Did I understand you that you were the gentleman of the house?"

"Yes, sir."

"Well, I—I just dropped in, sir, to see if *this is for radish*?"

THE SO CALLED "GREEK FIRE" USED AT CHARLESTON.—The Chicago *Tribune* remarks:

Gen. Gilmore's Greek fire is introducing a sensation into Charleston, and that from a distance of over five miles. And it is but history repeating itself, for the Christian era was but young while Roman warfare was using this terrible agency of burning flames upon liable upon the adversary and his works. These navies were destroyed when our ships were but slow gated barges and catapults the best approach to modern artillery. If General Beauregard is disposed to complain of the use of Greek fire, our commanders can plead classic precedents, and stifle all complaints with Anthon and Eschenburg.

The Greek fire shell in use at Charleston is we learn, the invention—patented a few months since—of a citizen of Buffalo, and adopted by the Government. The base of the combustible agent is petroleum, chemically combined with other highly inflammable ingredients, the whole forming an inextinguishable compound, which once ignited burns triumphant over all ordinary means of quenching fire, burns even in water, and can only be put out by being burnt out. This awful war agent is contained in a light and altered chamber, enclosed in the common form percussion shell, that itself discharges by striking the object aimed at, ignites the fire, which is scattered broadcast, its flames giving a new terror to the perils of war.

MEN, WOMEN OR CHILDREN.

HELMBOLD'S EXTRACT BUCHU

"INSANITY AND CONSUMPTION."

Many are aware of the cause of their suffering, BUT NONE WILL CONFESS.

THE RECORDS OF THE INSANE ASYLUMS

AYER'S

CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M.D.

A. B. MORTLEY, Esq., of UTICA, N. Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., [illegible]

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of Whooping Cough, Croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill and commend your medicine to our people. HIRAM CONKLIN, [illegible]

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., [illegible]

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.

HENRY L. PARKS, Merchant.

A. A. RAMSEY, M. D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856.

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.

Yours with gratitude and regard,

ORLANDO SHELBY, of SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all round us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures of the following complaints:—

Costiveness, Billious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Practical and Analytical Chemist, Lowell, Mass.
